

<b>PROJECT PROFILE</b>	
<b>PROJECT NAME</b>	Lake Victoria Water and Sanitation Project Phase II
<b>FUNDER</b>	African Development Bank
<b>LEAD SUPERVISOR</b>	Ministry of Water and Environment/GOU
<b>LEAD PARTNER</b>	Network for Water and Sanitation Uganda.
<b>PROJECT AREA</b>	Towns of Mayuge, Bukakata, Kayabwe, Buwama and Ntungamo Municipality
<b>PROJECT PERIOD</b>	2014-2016

**The project had three components which were implemented by different partners and these were;**

☉ Promotion of Sanitation and Hygiene Education implemented by ARISE.

☉ Construction of Water Supply and Sanitation System implemented by Vidas Engineering Services Company Limited- Supervised by Fichtner Water & Transportation/M&E Associates LTD.

☉ Capacity Building on facilities usage implemented by UN-Habitat.

**In this project, the following was achieved;**

- ☉ One pit latrine and four water born toilets were constructed in Ntungamo Town i.e.
  - ▶ Two in Taxi and Bus Park,
  - ▶ one at central market and
  - ▶ one at Municipal Headquarters
  - ▶ while a pit latrine was constructed at Matooke market
- ☉ Three other school pit latrines were put up in schools of Rukindo, Kikoni SDA and Maato Moslem Primary schools
- ☉ 12(24) garbage skips both for biodegradable and non-biodegradable were given to Ntungamo Municipality
- ☉ A strong piped water supply system was constructed for the town and its outskirts
- ☉ One fecal silage was constructed near Standard College Ntungamo in Central Division

The communities were sensitized on solid waste management through garbage sorting using the different colored skips as well as forming water user committee for the public taps

Three health clubs were formed in all three beneficiary schools and trained in good sanitation and hygiene related practices. Some are still functional

The project component of sanitation promotion costed 210M UGX
